PHONOGRAPHIC DICTIONARY

CONTAINING THE REPORTING OUTLINES FOR UPWARD OF THIRTY
THOUSAND WORDS; EMBRACING EVERY USEFUL WORD IN THE LAN-
GUAGE, AND A LARGE NUMBER OF PROPER AND GEOGRAPHICAL
NAMES, LEGAL, SCIENTIFIC AND TECHNICAL TERMS, ETC.

—BY—

BENN PITMAN AND JEROME B. HOWARD.

CINCINNATI:
PHONOGRAPHIC INSTITUTE.

1886.

Entered according to act of Congress, in the year 1883, by
BENN PITMAN and JEROME B. HOWARD,
In the Office of the Librarian of Congress at Washington, D.C.

ELECTROTYPED AT
FRANKLIN TYPE FOUNDRY,
CINCINNATI.

ALBANY, N. Y. 1883.

BY THE LIBRARIAN OF CONGRESS

PREFACE.

THIS work consists of a vocabulary of all the useful words of the language, printed in ordinary type, each word accompanied by the phonographic outline, which experience has shown to be the best for reporting purposes. These outlines are fully engraved, and placed in close proximity to their respective printed words on the same page—an arrangement which will be appreciated by the reporter and student of Phonography.

There are two distinct theories for the formation of consonant outlines. The first, and that which has been most generally followed, is to consider each word as an independent individual, and to write it with what seems to be the most facile and flowing outline, irrespective of other words to which it may have relation. The other theory is to consider all words as being either primitive or derivative, and to write the derived outlines in accordance with the forms used for their respective primitives. By the first method, the following words would be written—

mean, meaner, meanest, meanly, meanness,

while according to the theory of derivation, the same words should be written—

thus preserving in every outline the form () of its primitive,
mean.

While we do not, unreservedly, embrace either theory, to the entire exclusion of the other, we believe that the principle of etymological relation, should be adhered to whenever a serious loss of speed does not result therefrom. Not only is this method of formation more consistent and philosophical in itself, as representing the language more faithfully, but it also brings with it a gain to the reporter both in writing and reading. For, while many contractions may be made by the omission of those inflectional endings, which are not necessary to the decipherment of the sense, and thus, writing made more expeditious, reading is made easier and more certain by the fact that the eye readily becomes accustomed to recognize the primitive forms, with or without their inflectional endings.

This theory for the formation of outlines has been too little appreciated and too long neglected, and where outlines have been introduced into the following pages at variance with previous usage, they are such as tend to the establishment of this principle. When a serious retardation of speed would be the result of a change, we have retained the old form. It is our belief, however, that the tendency of the future will be to render outline-writing more uniform and consistent in this respect.

Those words in the following pages, given with the dot *con-*, *com-* prefixed, may also be written without the dot, if the reporter deem it sufficiently legible, or if the *con-*, *com-* be expressed by proximity to the preceding word.

When no form is given for the plural of a noun, it is to be written with the form given for the singular, with the circle *s*, or *z*, added. Irregular plurals are always given.

When no outline is given for the present participle of a verb, it is to be written with that given for the present infinitive, with the dot *-ing* added, or omitted, at the discretion of the writer. It is usually quite legible to omit it. Whenever the stroke form of *ing* is preferable, the outline is given.

When the outline of the imperfect or past tense, or the past participle of a verb of the weak inflection is not given, (written in the ordinary spelling with *-d* or *-ed*), it is to be written with the same form as the present infinitive. If it is desired to make these forms complete, add the full length stroke *t*, or *d*, disjoined if necessary, as—

educate L imitate ʃ end ʃ

educated L imitated ʃ | ended ʃ |

When an outline is given with a portion dotted, it is to indicate that such portion may be omitted without destroying the legibility of the word.

BENN PITMAN,
JEROME B. HOWARD.

OF

Phonographic Works,

BY

BENN PITMAN AND JEROME B. HOWARD.

Published at the
PHONOGRAPHIC INSTITUTE,
CINCINNATI, O.

The Manual of Phonography. By BENN PITMAN and JEROME B. HOWARD. This work is designed for self-instruction in the Phonographic art, and is the proper book for the beginner. It contains a complete exposition of the system from its simplest principles to the Reporting Style, arranged in alternate and opposite pages of explanation and phonographic exercises. Every principle is copiously illustrated with engraved examples for reading, and exercises in the ordinary type for writing practice. A large number of pages of engraved reading matter are appended to the book. Boards.....\$ 80
Extra cloth..... I 00

It speaks well for the completeness and satisfactory features of Pitman's system of Phonography that, after thirty years, the author's "Manual" appears in a revised edition with comparatively few changes, and still recognized as the standard text-book of shorthand writing. Where the present edition differs from the preceding edition is in points approved by the experience of the best reporters and phoneticians.—*Boston "Advertiser."*

It has been the standard text-book in America. The present edition contains many improvements, and is quite abreast of phonographic progress. . . . The subject has been logically developed, following phonetic principles and introducing as little empiricism as possible. . . . The volume is compact and well made, the phonographic characters being particularly clear and intelligible.—*Scientific American.*

The very best book for studying this useful accomplishment. Every thing is made as plain as simple language can make it, and there is no one who can not learn shorthand from its pages who is possessed of ordinary capacity and who is willing to show some application.—*Philadelphia "Saturday Evening Post."*

It has the merit of simplicity, which many of the other systems lack, and the phonographic exercises are beautifully printed.—*San Francisco "Chronicle."*

This is the best work there is with which to acquire a knowledge of shorthand, whether for class or private students.—*New Orleans "States."*

It is in the power of any intelligent person to learn Phonography by a careful study of this work.—*Kansas City "Times."*

The simplest and best of the innumerable hand-books on shorthand writing in the market.—*Boston "Transcript."*

The reader will find this a standard authority on the subject.—*St. Paul "Pioneer Press."*

The standard text-book of Phonography in America.—*Troy (N. Y.) "Times."*

The best work of the kind extant.—*Indianapolis "Journal."*

A very complete little hand-book.—*Philadelphia "Times."*

The standard text-book for students.—*Toledo "Blade."*

The Phonographic Reader. By BENN PITMAN and JEROME B. HOWARD. This work is designed as a companion to the Manual and affords the necessary reading practice in the Corresponding Style. The selections are taken (by permission) from McGuffey's Fifth Reader, which may be used as a Key. Paper..... 25

The Phonographic Copy-Book. Made of double-ruled paper, such as is used by most Reporters, but with the lines wider apart for the learner. The utility of this paper for the beginner is unde-

niable, assisting him, as it does, to acquire a neat and uniform style of writing. Paper, 15c., postpaid..... 17

The above three books form a set, from which a perfect knowledge of this time and labor-saving art may be acquired by any one without the aid of a teacher. The set will be sent, postpaid, with Manual bound in boards..... 1 20
Manual in cloth..... 1 40

The Reporter's Companion. By BENN PITMAN. A Guide to Verbatim Reporting; for Professional Reporters and those who desire to become such. This work takes up the Corresponding Style, and, without a perceptible break, conducts the student to the briefest Phonography necessary for reporting the most rapid speakers. The book is arranged in easy, progressive style, entirely adapted for self-instruction. It contains abundant reading matter for practice in the Reporting Style, with a Key, and a Vocabulary of several thousand words in the ordinary type, with their Phonographic outlines engraved in the Reporting Style.

Thousands of Reporters have acquired their ability to write verbatim with no other instruction than that afforded by this and the preceding set of books. Boards 1 00
Extra cloth..... 1 25

The Phonographic Dictionary. By BENN PITMAN and JEROME B. HOWARD. Containing the Reporting Outlines for upward of 30,000 words; embracing every useful word in the language, and a large number of proper and Geographical names, Legal, Scientific, and Technical terms, etc., fully engraved with parallel Key in the ordinary type.

It is believed that this work is the first Dictionary of Phonography ever published, which will fully meet the wants of the student and practical reporter. Specimen pages sent to any address on application. Extra cloth, gilt top..... 2 50
Half morocco..... 3 00

The reputation of the authors and the completeness and popularity of Mr. Pitman's books upon Phonography make the work of the reviewer light. It is sufficient to say that they are the best authority within the reach of the student.—*Toledo "Blade."*

It is not saying too much to claim for this volume that it will be of greater use than any other similar publication. . . . It is exhaustive and contains all the best devices that experienced writers have found of use.—*N. Y. "World."*

This book supplies a want long felt in the phonographic world, and especially to the followers of the Pitman system of phonography, which system is most generally used in the United States.—*Richmond (Va.) "Christian Advocate."*

It is a work which has been awaited with much eagerness by phonographers, and they will not be disappointed in its contents or typographical appearance.—*Cincinnati "Commercial."*

The Dictionary has long been needed by those using Benn Pitman's phonographic text-books, and will prove to them a great convenience.—*New York "Christian Advocate."*

The completeness of the book is surprising. We have looked it over carefully and are delighted with it.—*Express Gazette.*

Students and reporters who follow the Pitman system will find the work a very welcome assistant—"Home Journal."

A most valuable work for shorthand reporters.—*London (Can.) "Advertiser."*

The Phrase Book. BY BENN PITMAN. A very valuable book to the practical reporter, as it contains over 6,000 of the most frequently occurring and useful phrases written in the briefest and most legible manner. Extra cloth 1 00

The Phonographic Second Reader. [*New.*] By BENN PITMAN and JEROME B. HOWARD. Containing reading exercises engraved in Easy Reporting Style, and, like the Phonographic Reader, keyed by McGuffey's Fifth Reader. Paper..... 25

Plain Talk. By SPURGEON, of London. A book of apt and racy talk, containing more practical sense than any thing written since the days of Franklin. Engraved on stone, by BENN PITMAN, in the corresponding Style. Boards..... 50

Rip Van Winkle. [*In preparation.*] In Easy Reporting Style. Pa. 25

The Reporter's First Reader. By BENN PITMAN. Contains interesting and valuable tables of alphabetic strokes, with their combinations of initial and final appendages; also reading exercises in Reporting Style, with Key in ordinary type. Paper.. 25

The Battle of Waterloo. A compilation and arrangement from Creasy's "Fifteen Decisive Battles," by BENN PITMAN, engraved in the Reporting Style, with three maps. No Key. Paper... 25

The Declaration of Independence. In the Reporting Style. An ornamental sheet, 19 x 22 in., finely printed in colors, with floral border. Mailed, rolled for framing..... 15

Reporting Paper, double line, for pen, 17c. per quire; postpaid 20

Double line, for pencil, 15c. per quire; postpaid..... 18

Single line, for pencil, 15c. per quire; postpaid..... 18

Special rates on quantities.

Letter Paper, double line, 15c. per quire; postpaid..... 17

Reporting Case, a-leather cover adapted for holding one or two quires of reporting paper, which can be removed when used and the case replenished. Indispensable when the reporter, having no table is obliged to rest his paper on his knees. Sheep, \$1.00; morocco..... 1 50

Gold Pen, manufactured by John Holland especially for Phonographic writing and reporting. 1 50

With gold mounted, reversible holder..... 2 00

The above works are for sale by all booksellers, or will be forwarded post-paid, on receipt of the marked price, except when postage charges are specified. Teachers of the art, and the trade, supplied at a liberal discount.

All orders must be accompanied by a remittance.
